Helpful, searchable content gives relevant customers more reasons to discover you.

Reach More Customers with Low-Cost Advertising

Start with a focused test

Choose a fridge with proven demand and sufficient margin.

Test one product and two authentic creatives: benefits, price and action.

Use Click-to-WhatsApp ads in locations you can serve.

Measure paying customers

Handle inquiries and orders through WhatsApp Business.

Record ad spend and completed paid purchases from the campaign.

Calculate cost per purchase; improve based on sales, not messages alone.

Acquire paying customers at a cost the business can sustain.
